Summer 2021 Update

The LGBTQIA+ Task Force is newly formed and is currently organizing and aiding other task forces in the Trauma-Informed Committee with existing projects. At the present, we have been working to create our own evaluation criteria alongside the other task forces and are currently looking to develop a resources list of helpful links to aid both those members within the community and those who seek to aid them as allies. Moving forward, we are hoping to expand our task force and work to implement further resources that can help Middle Earth to further promote safe spaces.
